Roy the plan is to have all 16 fabric chairs cleaned that are stored in the library. Have all the carpet shampoo which is 22 work stations and the carpet down toward the elevator doors. Wipe down all the desk tops and the top of partitions. Right now, I am waiting on proposals from Cassidy & Turley. I will call Stanley Streamer to clean all the chairs. I will let you all when this is to happen soon. Thanks

Subject: Fw: We have a new problem

Howard, Patricia, and Shuan,

I would like to schedule a meeting in reference to the recent incident I had and the ongoing impacts to myself and others as a result of the July, 2014 chemical release. There are three of us, and perhaps others as well, who want to make sure that our records as well as your records are reflective of our impacts associated with the incident and are consistent with record and reporting requirements under the Federal OSHA.

I would also like to request that my union representative, Mr. Ronald Wiley also be allowed to attend this meeting. Thanks,

Subject: Re: We have a new problem

Krysti,

These previous emails sending us to other sites were not informative, or helpful and actually bring up more questions. As a result, I would prefer to sit down with whomever I should so that I can go over all the issues at one time. Since so much more has happened since the incident occurred, I want to make sure that all the impacts caused by the incident are adequately reflected on my time cards, leave slips, and the appropriate OSHA forms that account for time taken lost or taken off as a result of the incident (e.g., doctors visits, sick leave, etc.), as well as other costs associated with the incident.

I discussed this with the OSHA today after the incident that occurred this morning and she indicated that this should be done for the entire period from the date of the incident. I also believe others who were impacted may need this same type of assistance. Thanks,

I'm Krysti, a Labor and Employee Relations Specialist in OARM (I support OSWER). Schatzi forwarded me your emails from earlier today to help guide her through the appropriate next steps.

To answer some of your questions:

Patricia Hemmer is the Agency's worker's compensation program coordinator – see the email below regarding next steps if you elect to file a worker's comp claim.

The Health and Safety office can respond to the issues you've brought forward related to your OSHA concerns. Howard Wilson and Shuan Barbour-Swann are copied on this email – you can also reach out to them directly for appropriate next steps. My understanding is that you've worked with them before and that they are aware of some of the issues you've raised.

Please let me know if there's anything else you need.

Subject: RE: We have a new problem

I would assist with a workers' comp claim. It's 100% up to the employee if they wish to file a workers' comp claim. If they do, then they should complete Form CA-1 for an injury that occurred within 1 workday or Form CA-2 for an injury that occurred over a period of more than 1 workday. They file their workers' comp claim via this site: <https://ecomp.dol.gov>.

In EPA's Office of Safety and Health, the contact there is Shuan Barbour-Swann. She can be reached at 202-564-1650.

Let me know if you have further questions.

Subject: FW: We have a new problem

Pat,

The emails below are in reference to the PY contamination issue over the summer – this employee is claiming ongoing medical issues resulting from the contamination.

■ says that HR should have an OSHA representative (per OSHA), and that he would like to speak with that individual (do we have someone like that here? Is that you?) I think that we should encourage him to file a worker's comp claim (or at the very least fill out an incident report).

Should management fill out an incident report (CA-1, right?) over the printer issue this morning?

Can you help direct us here on the best way to move forward?

Let me know if you want to chat about this.

Good Morning Shuan,

I remember speaking with you last year and I felt you were compassionate about our situation and so I am reaching out to you, again. I and other are at a loss and we need help. (b) (6) [REDACTED]

We don't trust going to the management in our office to get the correct information and for every time I submit a leave slip due to a medical appointment or illness related to this event, the leave is deducted from my personal bank of leave. It is my understanding that it should come from a different bank of leave. **How do I get that resolved?**

An OSHA person indicated that there was an HR person that we should be working with and we also need help filling out or adding to the medical documentation that stemmed from the July 2014 event. **Who would that magical person be?**

(b) (6) [REDACTED]
[REDACTED] I am
paying with my health, patience, leave, and money. This is *inequitable*.

Subject: RE: Mandatory Supervisor and Employee Safety Training Courses

Barnes:

Good morning. I trust you had an enjoyable weekend. Just a quick follow-up to Howard's email last week. We also need all the ORCR employees to complete the "Workplace Safety" course in Skillport by COB Monday, May 4, 2015. Employees can type the course name in the search function to find and access it. The course will take approximately 15-20 minutes to complete. Please notify us in writing, via email, when your supervisors and employees have completed these mandatory training courses by the deadline. This will ensure the EPA complies with agreed upon corrective actions discussed with OSHA last week. In the interim, let us know if you have any questions. Thanks.

Looks fine to me.

From: Prince, Roy
Sent: Friday, April 10, 2015 11:17 AM
To: Wilson, Howard
Subject: Draft email for all of ORCR

Howard: I'd like to send out this afternoon to all of ORCR. Look OK to you? I'm not trying to throw you guys under the bus – but I want to be clear to our employees that the findings were not related to anything ORCR-related.

Hello everyone. In late October the Department of Labor's Occupational Safety and Health Administration (OSHA) conducted an inspection of our space related to last July's 5th floor pesticide incident.

Attached above are two documents:

- Final inspection findings which you'll also see posted on the bulletin boards in our 5th and 6th floor pantries. All the findings pertain to record-keeping discrepancies and training deficiencies on the part of the Agency's Safety, Health, and Environmental Management Division (SHEMD).
- A letter sent just yesterday from SHEMD to OSHA, stating that the record-keeping discrepancies are rectified; and requesting an April 28th date for submitting an action plan to mitigate training deficiencies and an informal conference between SHEMD and OSHA to discuss all the findings.

Please let me know if you have any questions.

Subject: Inspection Report for Potomac Yard Pesticide Incident at EPA's office space

Ms. Dance: I thought I would let you know that Cassie Watson has retired. I am filling her position until we complete our recruitment action. Please email or call me if you have any questions or need additional information to complete your inspection report. I would appreciate it if you could project a date when we will receive your report -- I've received a few inquiries and would like to come to closure on this matter, soon.

thank you.

Subject: RE: Contacts

Hi Howard,

I am just opening this email. When I get a date and time of the closing conference, I will notify the Unions by phone. The report is not provided at the closing conference. The report is generated after the inspection is closed and notices of safety/ health hazards (if any) are issued. The closing conference is where I go over my findings observed during the inspection. There is no paperwork provided. The closing conference usually only last about 30 minutes or less unless Management/Union has addition questions or concerns they want me address. I called you before seeing this email today. What I was trying to explain in case you didn't understand my fast talking, the closing conference usually consists of Management Representatives, Union Representatives, and Safety/Health Officials.

Hello Roy,

We learned of this sampling only after the receipt of these invoices as well. SHEMD was aware that the building manager/owner brought in an industrial hygiene firm in addition to EPA's resources, but we were unaware that sampling was performed and that the cost for these was going to be passed through.

(b) (5), (b) (4)

Please let me know if there is anything else we can do for you.

EPA received two work order proposals (attached) for air quality sampling services from Cassidy Turley that they ordered as result of an IAQ issue on the fifth floor of the PY2 Building. EPA provided their own sampling/tests for this space and did not request--nor approved--this work by the landlord. It is our position that the landlord shall cover these costs. I ask that you please address this issue with Cassidy Turley. Please call me if you have any questions.

Thank you, John

Subject: Potomac Yard - Outstanding Work Order Proposals (WOPs)

Good Afternoon Charles,

Per your meeting with EPA and Cassidy Turley on Tuesday, please find an Outstanding WOP Summary along with copies of the below outstanding WOPS (with back up) on file for EPA:

EPA 5th Fl Carbon filters.pdf

EPA 5th FI IAQ.pdf
EPA 5th FI Pesticide Assessment.pdf
EPA Conf Rm OTHVAC 10.2014.pdf
EPA Delta Barrier Ownership Fee.pdf
EPA Delta Barrier valve repl.pdf
EPA FY14 Q4 Submeter Charges.pdf
EPA FY15 Submeter Charges.pdf
EPA Generator&DC Maint FY15 - FY17.pdf

Please note I will re-send under separate cover the WOP previously submitted re: Ownership's 10% fee to manage USAID's generator contract. The amount was not included on GSA's Award.

Should you have questions or require additional information after reviewing the content, please let us know.

Thank you,

Wanda

Good morning Roy, I was told to pass these invoices on to OWSER. I have one more that I will hand carried to you this morning. That cost on that invoice is \$1140.91 and that's for 5th floor Oder abatement-Carbon filters that were install in the ceiling. I am out on Monday my CDO. I will come to visit you on Tuesday of next week. Enjoy Thanksgiving.

Helen,

I suggest that you send these two proposals to OSWER for funding.
